North	7	+8%
West	5	+6%
South	4	+4%
East	2	+3%

03 Work completed

Illustrative examples of work items · not a client record

Example work delivered in October

Suggested checks for the following reporting period

Content structure

Created 12 synthetic category and guide pages to make the site easier to navigate.

Technical cleanup

Reviewed sample canonicals, sitemap coverage and page titles across 40 example URLs.

Measurement

Separated search visits from contact actions in the example reporting model.

Landing pages

Improved internal paths between product groups and educational resources.

Quality review

Checked desktop and mobile templates using synthetic test cases.

Reporting

Saved a repeatable baseline for comparison with the next sample period.

Next-period plan

- Review the sample contact form on mobile.
- Expand the technical guide section.
- Recheck indexing for the 8 sample URLs that remain unknown.
- Compare the next monthly sample with this baseline.

Needed from the site owner

- Confirm the priority product groups.
- Share any planned site changes that could affect URLs.
- Review the sample contact actions and their definitions.
